Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. Due to Office error in scanning in the instant application the applicants are requested to provide in response to this Office action copies of the signed form 1449 for the information disclosure statements filed 22 March 2001 and 21 January 2003 to complete the Office records. The Office regrets any inconvenience this may cause the applicants.

Specification

2. The objection to the disclosure of the tables of pages 47-65 in the Office action mailed 10 March 2003 is withdrawn in view of the amendment filed 09 July 2003 deleting pages 47-65.

Claim Rejections - 35 USC § 112

3. The rejection of claims 49-55 under 35 U.S.C. 112, second paragraph in the Office action mailed 10 March 2003 is withdrawn in view of the amendment filed 09 July 2003.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 66 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 66 is indefinite for recitation of the phrase “an antisense polynucleotide” because the recitation concerns methods rather than compounds. The rejection would be overcome by amending claim 66 to recite “applying an antisense oligonucleotide.”

For the purpose of examination, the claims have been assumed to incorporate the suggested amendments.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 49-57, 60, 61, and 63-65 are rejected under 35 U.S.C. 103(a) as being unpatentable over BIODX, Weaver et al., Pauwels et al., and Weinstein or BIODX, Singhvi et al. Pauwels et al., and Weinstein further in view of Sundblad et al. for reasons of record in the Office action mailed 16 July 2002.

7. Claims 49 and 66 rejected under 35 U.S.C. 103(a) as being unpatentable over BIODX, Weaver et al., Pauwels et al., and Weinstein or BIODX, Singhvi et al. Pauwels et al., and Weinstein further in view of Sundblad et al. as applied to claims 49-57, 60, 61, and 63-65 above, and further in view of Rojanasakul for reasons of record in the Office action mailed 10 March 2003.

8. Applicant's arguments filed 09 July 2003 have been fully considered but they are not persuasive. The applicants state that neither Pauwels et al. nor the other applied references show composite fingerprints of multiple cell lines or principal component analysis of multiple cell lines in aggregate. However the instant claims do not require the limitations argued by the applicants and read on individual analysis of pluralities of features of pluralities of cell lines.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
